W-VALVE RETROFIT FOR R-PUMP HOUSING

BLUEONE DOMESTIC HOT WATER PUMPS

UNIVERSAL – SIMPLE – HIGHLY EFFICIENT

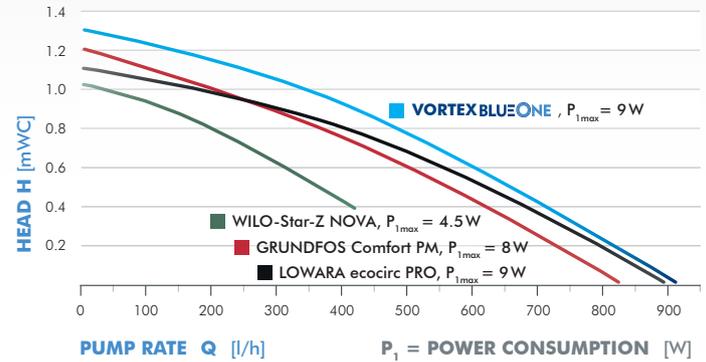

Revolutionary technology and one-of-a-kind: the BlueOne series from Deutsche VORTEX. Compliant with all relevant standards and technical guidelines.

VORTEX universal motors fit all existing systems, regardless of manufacturer and year of production. This means that any system can be upgraded or retrofitted with a VORTEX pump in just a few simple steps, thus providing you with great potential for energy savings in terms of heat loss, water usage and electricity consumption.

With VORTEX valves, no modifications to the pipework are necessary when replacing a pump.
